I would like to join a project involving the climate change on endemic plant species and plant species interactions by molecular based approach.

Please complete the information below depending if you are looking for a partner (to join your project), or a project (you would like to join) – Max 1 page.

DESCRIPTION OF YOUR EXPERTISE /SKILLS

I can work on genotyping analysis to define biological populations in research of genes and gene variants associated with dynamics of biodiversity. The main skills are molecular biology techniques, such as: nucleic acids extractions, RT-PCR, PCR and qPCR. In addition, I can provide plant samples from the Transylvania area.
