I AM LOOKING FOR : A PARTNER (FOR MY PROJECT) A PROJECT TO JOIN

BRIEF DESCRIPTION OF YOUR PARTNER SEARCH (*) (2-3 lines to be published on the website – the complete form will be available to download)

We would like to join a project dealing with agroecosystems, garden areas or Mediterranean forest. Our current interest are the non-crop plants used as cover crops, field hedges, hedgerows or shelterbelts to evaluate agroecosystem services and biodiversity (mostly insect biodiversity). We also work on the effects of climate change on agroecosystems, garden areas and forest at several levels (for instance invasive insect species). In Valencia (Spain) we also work on wetland areas.

Please complete the information below depending if you are looking for a partner (to join your project), or a project (you would like to join) – Max 1 page.

DESCRIPTION OF YOUR EXPERTISE /SKILLS

At the ECOBIO Institute of Rennes (France) Juan Sorribas have been working during the last two years on the effects of climate warming on insect natural enemies and searching for appropriated flowering plants to be used in agriculture lands as complementary food sources for these natural enemies. Currently he also collaborate with Rosa Vercher at the Ecology Department and the IAM Institute of the Politechnic University of Valencia (Spain) working on agroecosystem services and agroecology at several levels. Our team also works on botanic of Mediterranean plants, essential oils, Mediterranean forest conservation and pest biological control.
