

INFORMATION SHEET

Policy brief: “How soil biodiversity can strengthen resilience and ecosystem services in agricultural landscapes”

Earthwatch Europe was contracted on behalf of BiodivERsA by the Royal Belgian Institute of Natural Sciences (RBINS)/Belgian Science Policy Office (BELSPO) to produce a policy brief based on the results of the [SoilMan](#), [Digging-Deeper](#), and [SOILCLIM](#) projects by the BiodivERsA call 2015-16 (co-funded by the European Commission), with the national funders ANR (France), BMBF (Germany), DFG (Germany), Estonian Research Council (Estonia), FORMAS (Sweden), AIE (Spain), SNF (Switzerland), UEFISCDI (Romania), and FCT (Portugal).

Knowledge and methodology used

The Policy Brief “How soil biodiversity can strengthen resilience and ecosystem services in agricultural landscapes” is based on the scientific results of the named projects. The Brief extracts and summarises some key results of the projects and provides a list of relevant policy recommendations linked to current EU policy processes. The Brief was drafted by Earthwatch Europe, in consultation with the BiodivERsA Policy Briefs Working Group, and with researchers from the respective projects. The topic of the brief was proposed bottom-up by the SoilMan, Digging-Deeper, and SOILCLIM researchers through a call for topics launched in the second half of 2019, and ultimately selected based on feedbacks from the BiodivERsA Advisory Board and Policy Briefs Working Group. Initial scoping of content and possible messages was done during a virtual meeting with the project partners in September 2020, facilitated by the BiodivERsA science-policy/science-society officer. Earthwatch Europe consulted all relevant SoilMan, Digging-Deeper and SOILCLIM outcomes as supplied by the BiodivERsA secretariat. All sources used are listed below.

Quality control

An initial and advanced draft of the brief was reviewed by the Policy Briefs Working Group and the research partners; and comments and suggestions made were addressed.

BiodivERsA funded research project contacts

Prof. Dr. Klaus Birkhofer, project coordinator of SOILCLIM

Dr. Martin Potthoff, project coordinator of SoilMan

Prof. Dr. Marcel van der Heijden, project coordinator of Digging-Deeper

BiodivERsA Policy Briefs Working Group

Frédéric Lemaître – Fondation pour la Recherche sur la Biodiversité, 195 rue Saint Jacques, 75005 Paris, France.

Lise Goudeseune – Belgian Biodiversity Platform, Royal Belgian Institute of Natural Sciences (RBINS), Rue Vautier 29, 1000 Brussels, Belgium.

Hilde Eggermont, BELSPO, Belgium (Vice Chair of BiodivERsA).

Matt Smith – Joint Nature Conservation Committee, Peterborough, UK.

Ant Maddock - Joint Nature Conservation Committee, Peterborough, UK.

Claire Bléry, FRB France (CEO of BiodivERsA).

Xavier Le Roux, FRB France (Chair and Coordinator of BiodivERsA).

Sophie Germann, ANR France.

Catherine Julliot, Ministère de la Transition Ecologique (MTE) France.

Mari Susanne Solerød, RCN Norway.

Turgut Orman, MFAL Turkey.

Per Sjögren-Gulve, SEPA Sweden.
