

**BiodivERsA Policy Brief #2 – CONSERVATION OF THREATENED INSECTS IN EUROPE:
Managing habitats for land use and climate change adaptation**

Knowledge and methodology used

1. Knowledge, skills and people consulted

The Policy Brief “Conservation of Threatened Insects in Europe: Managing habitats for land use and climate change adaptation” is based on the scientific results of the [CLIMIT project](#), funded by the BiodivERsA network. The Brief extracts and summarizes the key results of the project and provides a list of relevant policy recommendations linked to current EU policy processes.

The project results were provided to the policy brief production team by the PI (project leader) Josef Settele. The policy recommendations were identified following consultations involving the PI and his team and selected experts (names and methodology explained more in detail below). The BiodivERsA Policy Briefs Group, composed by representatives of BiodivERsA partners, checked and commented on the brief before publication.

IUCN Production team:

Anouska Plasmeijer

Cyriaque Sendashonga

Juliane Zeidler, IUCN Commission on Education and Communication

Liza Drius (leader of the production team)

Luc Bas

Thomas Brooks

Experts from the CLIMIT project:

Josef Settele, CLIMIT project leader (UFZ, Halle, Germany)

Jeremy Thomas, Professor of Ecology (University of Oxford, UK)

Other experts consulted for this Brief:

Jamie Carr, Programme Officer, IUCN Global Species Programme

Janice Weatherley, Environmental consultant

BiodivERsA Policy Briefs Group:

Barbara Livoreil, Fondation pour la Recherche sur la Biodiversité (FRB), France

Cecile Nivet, French National Research Agency (ANR)

Dori Campo, MINECO, Spain

Francisco I. Pugnaire, CSIC, Spain

Frederic Lemaître, FRB

Helen Baker, JNCC, the UK

Henrik Lange, Formas, Sweden

Hilde Eggermont, Belgian Biodiversity Platform

Mark Stevenson, DEFRA, the UK

Maurice Heral, ANR

Per Backe-Hansen, The Research Council of Norway

Per Sjögren-Gulve, SEPA, Sweden

Rainer Sodtke, Projektträger im Deutschen Zentrum für Luft- und Raumfahrt (DLR), Germany

Xavier Le Roux, FRB

2. Methodology used

IUCN European Union Representative Office was contracted by the Swedish Environmental Protection Agency (SEPA), in the context of Task 2.2 “Promote dissemination and communication of research results to support policy” of the BiodivERSA 2 work programme. A BiodivERSA Policy Brief Group, including representatives of several BiodivERSA partners, was established to advise on the activity implementation and check Brief content. The BiodivERSA Policy Brief was produced by a team composed of IUCN staff. The process for the elaboration of the policy brief involve several steps – described below, from the extraction of key results of the research project funded by BiodivERSA to the drafting of policy recommendations and finalization of the Brief’s text and adaptation to the layout.
